Extra Info

As I was learning to code, I challenged myself to do a desktop landing page on React.js from a Figma template: https://danhutsuliak.github.io/lasles-vpn-landing/

Figma template i referenced to: https://www.figma.com/file/k3SjmCZWoPKNx7d3XZ0K29/FREEBIES-Landingpage-LaslesVPN-(Community)?node-id=1%3A2

I also made my own project from scratch as a diploma work for college. It is an adaptive website for sport club: https://bctigers.herokuapp.com/

And some of my simpler pet projects i made to test my skills:

📄 To-do list with React.js: https://danhutsuliak.github.io/to-do-list-react/

🌤️ Weather App with React.js, using OpenWeatherMap Weather API: https://danhutsuliak.github.io/weather-react/
